If this appraisal of its effect were widespread, we said be inclined to oppose the bill in its entirety, as ship anhancing, rather than decreasing, the danger arbitrary measures through the creation of a faire se of security.

As it happens, however, the effect of this erroneous view of the bill is more than offset by the criticisms of those who maintain that the bill will be of no value whaters. These opponents of the bill maintain, quite correctly, that it is impossible for today's government to pass legislation which will hind future governments.

What they fall to grasp is the power of precedent the additional barriers which such a bill would raise and the administ parties which such a but would have against future limitations of rights now generally re-cognized. The mere fact that such a bill would have to be reecinded before future governments could pass laws limiting these freedoms is organily a protection.

The lawyers now raise the issue of the words in which these cherished freedoms are to be outlined.

SHELL'S OILPRINT ENGINE TEST!

...the new way to get the jump on engine trouble!

Developed by Shell Research...proved in Canadian commercial motor fleets! Shell's Oilprint Engine Test is now being brought to the public. Another exclusive service affered by your Shell Dealer. And it costs you nothing.

LOOK WHAT ONE DROP OF OIL CAN TELL ABOUT YOUR CAR!

Is your cooling system tooking? The Shell Oilprint Engine Test will indicate the presence of water or anti-freeze in your oil. This is important because even a few miles of driving with anti-freeze in the engine oil can cause sticky valve lifters or engine signer.

sexure.

Are you wenting fuel? Oil from a car
engine that's burning too fich a misture,
either most improper carbureries esting or
man checking, quickly becomes overloaded with carbon. A Shell analyst can
detect this condition upon examination of
your Shell Oillighrit Engine Test Card. Once
you correct this condition you'll enjoy better
mileages and more sower.

Shell's Ollprint Engine Test takes the guesswork out of oil drain periods. A single Ollprint: Test tells whether or not your oil needs changing at the time of the test. Tests at regular intervals will help tell you how many miles your car can be run between oil changes.

TAKES LESS OF YOUR TIME

THAN AN Oil LEVEL CHECK.
Your Shell station attendant can take an
Oilprint Test at the same time that he
checks your oil level. He simply less-cope,
drop of oil from your car's dispatisf fall on
a specially prepared card. The gard with
your oil sample is then sent in for Sanayiss.
The results will be ready for you in five days.

REMEMBER, YOUR OILPRINT ENGINE TEST IS FREE!

CITY OF BELLEVILLE

PROCLAMATION "National Electrical Week"

February 8 - 14

Whereas the availability of inexpensive electrical energy plays a tremendous part in the every day life of citizens of this community, and,

Whereas your Belleville Utility Commission con-tinually devotes its efforts to maintaining the high-est standard of service at the lowest possible cost to the consumer, and,

Whereas the local electrical appliance dealers and electric service installers are performing valu-able service to the residents of the community, I, Gerald B. Hyde, Mayor of the City, of Belleville, therefore proclaim the week of February 8-14 as "ELECTRICAL WEEK" in Belleville and would invite each citizen to consider the merits of "Living Better Electrically".

But ign the home market has list difficulties, too, as ted out, just as forcibly but in widely varying style, pose entitled "All For a Dimo Off the Price" mailed with the notation "Fermission to publish pranted Steel Company of Canada, Limited."

This poem tells about the plight of an unemploye

"He finds that the larges of 'cheap bargains' prevail
And his fellow Canadina: - that's us, you and meare buying from countries far over the sea.
Where the wages are less than a third of our own

The difficulty here is to reach the proper balance, the point at which our living standards are still high, because our wages are high, but at which our when because our wages are high, but at which our was markets. If there is any easy formula for establishing markets. If there is any easy formula for establishing the balance, we do nick now what it is. We feel fairly certain that it it not going to prove as simple as the solution suggested in the last line of the Steel Co. of Canada poem. Merely buying Canadian throughout 70 will not selve all our troubles.

Mr. Sale, we believe, came nearer to the heart of the problem when he stressed the necessity of bringing government expenditures "more nearly into line with revenues." Ought we not, however, to recognize that Work in the best of the control of living.

NOTICE TO MOTORISTS WHO HAVE NOT OBTAINED THEIR 1959 LICENCES

After this date it will be illegal to drive with 1958 licence or plates.

DON'T WAIT TILL THE MARCH DEADLINE

Act now and avoid inconvenience. A last minute rush will cause delay at the 250 Agency Offices throughout the province.

YOUR LICENCES **NOW**

TWO IMPORTANT REMINDERS

- You must show proof of Liability Insurance when you apply for plates or pay an extra \$5.00 into the Unsatisfied Judgment Fund. The additional \$5.00 payment is NOT a substitute for Liability Insurance
- If you do not have your "Proof of Liability Insurance" Certificate, see your insurance agent today. A policy for Fire, Theft and Collision is NOT Liability Insurance. Check your Policy.

Study the "Point System" folder you will receive with your Driver's Licence. It explains in detail your new Point System.

The Lamport-Rollins have a lot of hustle in their po-tential. They have proved this on more than one occasion. And if they can dig if out and use it from here in, they stand more than a passing chance of copping the semi-finals

Plants Will Be

Built in Ontario

Open channels in Moira River are what river watchers have been looking, for during the past several weeks as the threat of flooding during the spring-break-up approaches. Shown in the picture are open stretches in the river

above the upper bridge along Station Street. City Engineer Malcolm Turn buil stated today there had been little or no change in river conditions during recent days.

SHELL'S OILPRINT ENGINE TEST!

... the new way to get the jump on engine trouble!

Developed by Shell Research ... proved in Canadian commercial motor fleets! Shell's Oilprint Engine Test is now being brought to the public. Another exclusive service offered by your Shell Dealer. And it costs you nothing.

LOOK WHAT ONE DROP OF OIL CAN TELL ABOUT YOUR CARL

Is your cooling system looking? The Shell Oilprint Engine Test will indicate the presence of water or anti-freeze in your oil. This is important because even a few miles of driving with anti-freeze in the engine oil can cause sticky valve lifters or engine scirure.

seizure.

Are you westing fuel? Oil from a car engine that's burning too rich a mixture, either from inproper carburctor setting or too much choking, quickly becomes overloaded with catbon, A Shell analyst can detect this condition upon examination of your Shell Oilginit Engine Test Card. Once you correct this condition you'll enjoy better mileare and more sower.

Shell's Oliprint Engine Test takes the guesswork out of oil drain periods. A single Oliprint Test tells whether of not your oil needs changing at the time of the test. Tests at regular intervals will help tell you how many miles your car can be tun between oil changes.

TAKES LESS OF YOUR TIME THAN AN OIL LEVEL CHECK. Your Shell station attendant can take an Oilprint Test at the same time that he checks your oil level. He simply lets one drop of oil from your car's dipstick fall on a specially prepared card. The card with your oil sample is then sent in for analysis. The results will be ready for you in five days.

REMEMBER. YOUR OILPRINT ENGINE TEST IS FREE!
